

Navigation Bar Buttons

In Expanse, you have a black navigation bar at the top of the screen. The buttons are defined here:

- **Return To:** select to toggle between active screens or to close all screens at the end of a shift
- **Home:** select to return to the Acute Status Board or ED Homepage. The drop down arrow allows users to toggle between ED, Acute, and Ambulatory.
- **Chart:** select to open the highlighted patient's chart
- **Orders:** select to enter the orders routine for the highlighted patient
- **Discharge:** select to enter the Discharge Plan for the highlighted patient
- **Sign:** select to access the sign queue to sign orders, notes, and documents
- **Workload:** select to review messages for the current provider
- **Menu:** select to view additional routines that the provider may have access to, including preferences
